

TEAM Group

End of Employment Request — Submitter Guide

Step-by-step instructions for submitting an End of Employment request through the portal

Audience: Managers & Supervisors

Form: End of Employment Request

System: TEAM Group Employee Portal

Updated: May 2026

! Before You Begin

What this form does: Submitting the End of Employment Request initiates the offboarding workflow. HR reviews the request, then IT removes system access, fleet and finance teams are notified as needed, and a checklist is generated for equipment collection.

Terminations require HR pre-approval before you submit. If the reason is "Terminated," you must confirm that HR has already approved the termination. Do not submit without that approval — the form will ask you to confirm it, and the request will be held if approval is missing.

When to use this form vs. others:

- **Employee leaving the company** → this form (End of Employment Request)
- **Employee staying, role or site changing** → use the Employee Change Status Request instead
- **Adding system or equipment access for a current employee** → use the System & Equipment Request instead

1 Requester Information

Auto-filled — nothing to enter

Nothing to fill in here. Your email and name are populated automatically from your Google account. Confirm they are correct before continuing.

FORM PREVIEW

Requester Information

Requester Email *

jdoo@team-group.com

Auto-filled from your Google login.

Requester Name *

Jane Doe

Auto-filled from your Google account.

2 Employee Information

Enter the departing employee's details. Use the name exactly as it appears in ADP to avoid lookup issues for HR.

FORM PREVIEW

Employee Information

Employee Name *

Alex Johnson

Enter the employee's full legal name as it appears in ADP.

Does employee have a work email?

Has Work Email

Current Work Email *

ajohnson@team-group.com

Must be a company domain (@team-group.com, @robinsonsolutions.com, @industrialappliedtech.com, @stgroup.ca)

This triggers the Google offboarding section below — make sure the email is correct.

Manager Email *

jdoe@team-group.com

Start typing to use the company directory autocomplete.

Manager Name *

Jane Doe

Auto-fills when you select a manager email from the dropdown.

Site Name *

GM Oshawa Assembly

Hourly or Salary *

Hourly

Salary

Work email checkbox: Check this only if the employee has an active company email address (a Google Workspace account under one of the company domains). Hourly employees with no system access typically do not have one.

3

Termination Details

◇ CONDITIONAL — HR APPROVAL

Reason = Terminated

An additional "Has HR Approved this Termination?" field appears. You must answer Yes before submitting. Do not submit without confirmed HR approval.

Any other reason

HR Approval field is hidden. The request goes directly into the offboarding workflow.

FORM PREVIEW

Termination Details

Effective Date of Termination *

2026-05-15

The official end date as recorded in ADP.

Last Day Worked *

2026-05-14

The last day the employee was physically on-site or active.

Reason for Leaving *

Resigned

Selecting "Terminated" adds the HR Approval confirmation field.

Has HR Approved this Termination? *

Yes

No

Shown only when reason is "Terminated." You must confirm HR approval before submitting.

Does employee have direct reports? *

No

Yes

Selecting Yes reveals a field to specify who those reports will be reassigned to.

Direct reports: If this employee manages other employees, selecting Yes will reveal a field to enter the new manager's email. Use the directory autocomplete — must be a company email address.

4 System Access Removal

Check every system this employee currently has access to. Each checked item triggers the appropriate team to remove access. If unsure, check it — it is better to request removal of access that may not exist than to miss active access.

FORM PREVIEW

System Access Removal

HR Systems

☒ **ADP Supervisor Access**

Check if the employee had ADP supervisor access (i.e. they managed payroll or had team-level ADP visibility).

IT Systems

☒ **BOSS**

☐ CAA

☐ Delivery

☒ **Google Account**

☐ Incidents

Checking "Google Account" reveals the Google offboarding section below.

Fleet Systems

☐ Fleetio

Finance / Purchasing Systems

☒ **Central Purchasing / Jonas**

5 Google Account Offboarding

Conditional — only if Google Account is checked

◇ CONDITIONAL SECTION

Google Account not checked This section does not appear. Skip to Equipment & Assets.

Google Account checked This section appears. Specify how to handle email forwarding, Drive files, and account retention.

Decide what happens to the employee's Google account after departure. All fields are optional — leave blank if you don't need forwarding or file transfer. The account duration defaults to "1 month then delete" if not changed.

FORM PREVIEW

Google Account Offboarding

Email Forwarding To

jdoe@team-group.com

Must be a company domain. Who should receive emails sent to this account?

Transfer Drive Files To

jdoo@team-group.com

Must be a company domain. Who gets ownership of their Google Drive files?

Delegated Inbox Access To

Optional — leave blank if not needed

Must be a company domain.

Keep Account Active For

Default 1 Month then delete

Vacation Responder Message

Please be advised I am no longer with the company. Please contact jdoo@team-group.com for assistance.

Auto-fills with the forwarding address you entered above. Edit as needed.

Vacation responder: The message auto-populates based on the email forwarding address you enter. You can edit it manually — keep it brief and professional.

6 Equipment & Assets

Check every item this employee currently has. Checked items generate an asset collection checklist after HR approval. You will collect serial numbers and condition details at the time of physical return — you do not need them now.

FORM PREVIEW

Equipment & Assets

Check all equipment and assets this employee currently has.

☒ Computer / Laptop

☒ Mobile Phone

☐ Tablet

☒ Credit Card

☐ Vehicle and Keys

☐ Building Access Card /
Keys

Phone Number

905-555-1234

Shown when Mobile Phone is checked. Enter the
assigned phone number.

7 Documentation & Logistics

Attach supporting documentation — for example, a resignation letter, signed termination form, or end-of-contract notice. HR requires documentation for all EOE actions. The file is saved to Drive and included in the HR notification email.

FORM PREVIEW

Documentation & Logistics

Upload Documentation

Choose File No file chosen

Attach supporting documents (e.g. resignation letter, signed forms). File will be saved to Drive and included in the HR email.

HR requires documentation for all EOE actions. Attach the appropriate paperwork before submitting.

Additional Comments / Notes

Any additional context for HR or the offboarding team

☒ Submit

Review before submitting. Confirm:

- Employee name matches ADP exactly
- Effective date and last day worked are correct
- All systems the employee has access to are checked
- All equipment in the employee's possession is checked
- Documentation is attached
- If reason is "Terminated" — HR approval is confirmed

FORM PREVIEW

Submit End of Employment Request

You will receive a confirmation email with a Workflow ID. Save it — you can use it to track the request.

What Happens Next

1

HR Review & Approval

HR receives your request and reviews it. For voluntary departures (Resigned, Retired, End of contract, Deceased), HR processes directly. For Terminated employees, HR confirms approval before proceeding.

◇ [HR may reject and request more information](#)

2

System Access Removal

IT removes access to all checked systems (BOSS, Google Account, CAA, Delivery, Incidents). Fleet removes Fleetio. Finance removes Jonas/Central Purchasing. HR removes ADP Supervisor Access.

3

Google Account Offboarding

IT sets up email forwarding, transfers Drive files, grants delegated inbox access, and sets the vacation responder as specified. Account is retained for the selected duration then deleted.

◇ [Conditional — only if Google Account was checked](#)

4

Equipment Collection

You receive a collection checklist for all checked equipment items. Collect the items from the employee and mark each as returned, condition noted, and serial number confirmed.

◇ [Conditional — only if equipment was checked](#)

Offboarding Complete

All steps are marked complete. You receive a final confirmation email.

Frequently Asked Questions

The employee was terminated — do I need HR approval before submitting?

Yes. When you select "Terminated" as the reason, the form asks you to confirm HR approval. Only select Yes if HR has already verbally or in writing approved the termination. Submitting without this will delay the workflow and may require a correction.

The employee resigned — do I need HR approval before submitting?

No pre-approval required. For Resigned, Retired, End of contract, and Deceased, HR approval is not required at the time of submission. HR will still review the request, but the workflow proceeds without a pre-approval gate.

I'm not sure which systems the employee had access to. What should I check?

Check anything you think they may have had. If a system is checked but the employee didn't have access, the removal team will simply note "no access found" and move on — it causes no harm. It is much better to over-select than to leave active access unremoved. If you're unsure, check **BOSS, Google Account**, and **ADP Supervisor Access** as a minimum for salary employees, and only Google Account and SiteDocs for most hourly employees.

The employee doesn't have a company email — do I leave the work email blank?

Leave the "Has Work Email" checkbox unchecked. The work email field and the Google offboarding section will not appear. Most hourly employees with no system access fall into this category.

What if I submitted the form but made a mistake?

Contact HR immediately with your Workflow ID (from the confirmation email). If HR has not yet approved, the request can be corrected. If it has already been approved and actions have started, HR will need to manually adjust affected records.

How do I check the status of the request?

Log into the **TEAM Group Employee Portal** and open the Dashboard. Find your request by the Workflow ID from your confirmation email. The dashboard shows which steps have been completed and which are still pending.
